C. 100-1000

Contract RD-71, Transfer of Equipment to [REDACTED]

25X1

1. During the development of the RR/AA-11 receiver the [REDACTED] expressed the desire to obtain a complete unit for their evaluation. Subsequently, they issued a requisition number W28-003-368-SCEL a-56, attached, and the contract (RD-71) was modified to produce this additional unit.

25X1

2. The RR/AA-11 and accessory items have been received and it is our desire to transfer this unit to the [REDACTED] MSB requisition OC/2207-52-58 is attached for this purpose. The [REDACTED] requisition, attached, describes the method of delivery.

25X1

3. Please note that the [REDACTED] requisition calls for the delivery of one (1) radio receiver RR-11AA and RR-11BB, items 1 and 2, the MSB requisition shows only one (1) receiver and two (2) tuner mechanisms, items 1, 2 and 3. Item 2 of the Signal Corps requisition should have called for a tuner mechanism RR-11BB instead of a receiver. [REDACTED], of the [REDACTED], has been contacted and understands this apparent discrepancy.

4. It is requested, that in transferring this unit the [REDACTED] be reminded that the association of this Agency with the contractor and the equipment is classified SECRET, although the equipment itself is UNCLASSIFIED. It is further requested that they be advised this unit is for test and evaluation purposes only and that operational use of the item should be cleared first with this Agency.
